21. On August 17, 2004, the IACHR granted precautionary measures to 35 families living in the districts of La Reliquia, La Nohora, Ciudad Porfía, Antonio Pinilla, El Rodeo and Playa Rica of the city of Villavicencio, who have been victims of murder, disappearance, stigmatization, and threats after their displacement from the municipality of Castillo in the region of Ariari. Available information indicates that the displaced persons are scattered in a series of districts living in misery and/or marginal conditions and under the control of the same paramilitary-type structures that led to their displacement from the municipality of Castillo, on the border of the former zone of *détente*. In view of the situation of the beneficiaries, the Commission requested the Colombian Government to adopt the necessary measures to guarantee the life and physical integrity of the 35 families displaced from Ariaria who are now living in the districts of La Reliquia, La Nohora, Ciudad Porfía, Antonio Pinilla, El Rodeo, and Playa Rica of the city of Villavicencio, with the intervention of the Office of the Human Rights Ombudsman and the Office of the Attorney General; to provide the beneficiaries who have the status of internally displaced persons with the humanitarian assistance required, in the light of the Governing Principles of Internal Displacements and domestic law; and to report on the actions adopted to judicially clarify the incidents that justify the adoption of precautionary measures. The Commission continues to monitor the situation of the protected families.
