41. On October 12, 2004, the IACHR granted precautionary measures in favor of the members of the Kelyenmagategma Indigenous Community of the Enxet People. Available information indicates that, on August 29, 2004, members of this community had allegedly been displaced by force from their ancestral land, through the actions of individuals who destroyed their homes and working tools. The Petitioners allege that the displaced persons are living in deplorable conditions and that their personal safety is in imminent danger. In view of the situation, the IACHR requested the Paraguayan State to adopt precautionary measures necessary to protect the lives and physical integrity of the members of the Kelyenmagategma Indigenous Community of the Enxet People, to provide humanitarian support to the displaced persons and guarantee their prompt return to their ancestral land, and to report on the actions undertaken to clarify the facts justifying the adoption of precautionary measures. The Commission continues to monitor the situation of the beneficiaries.
