35. On July 27, 2005, the IACHR granted precautionary measures in favor of Mr. Luis Williams Pollo Rivera, a detainee at the Miguel Castro Castro prison. The information available indicates that Mr. Luis Williams Pollo Rivera suffers from diabetes and kidney disease, and that he lacks adequate medical attention at that detention center. Given the risks facing the beneficiary, the Commission asked the Peruvian Government to adopt the measures necessary to provide Mr. Luis Williams Pollo Rivera with adequate medical attention during the time that he remains in the custody of the prison authorities. The Commission continues to monitor the situation of the beneficiary.
