28. On February 12, 2008, the IACHR granted the request for precautionary measures for MAA and her three daughters, whose identities are being kept confidential because of their age and the nature of the allegations made. The request seeking precautionary measures alleges that one of the girls had been the victim of a number of acts involving sexual abuse. The request states that when the problems were reported to the competent authorities, the girl was allegedly abducted between August 28 and 29, 2007, and that the family had allegedly been the target of harassment to get them to withdraw their complaint. On December 19, 2007, the Commission asked the State to provide information on the situation. After considering the additional information supplied by both parties, the Commission decided to ask the Mexican state to take the measures necessary to guarantee the life and physical integrity of the beneficiaries and to report what measures have been taken to conduct a judicial inquiry into the facts in this case that warrant enforcement of precautionary measures. The Commission continues to monitor the situation.
