12. On June 1, 2009, the IACHR granted precautionary measures for the persons deprived of liberty in the Polinter-Neves penitentiary, in the city of São Gonçalo, State of Rio de Janeiro, Brazil. The request seeking precautionary measures alleges that the inmates at the Polinter-Neves penitentiary do not have adequate access to medical attention. It is also alleged that inmates with tuberculosis and other contagious diseases share cells with other persons in a highly overcrowded situation and without sunlight. The Inter-American Commission asked the State of Brazil to adopt all measures necessary to guarantee the life, health and physical integrity of the beneficiaries; to ensure that they have adequate medical attention and to avoid the transmission of contagious diseases through a substantial reduction of the overpopulation in this penitentiary; as well as to inform the IACHR about the actions taken in response to this request.
